This is only a partial list of the number of varieties of Rhododendron which we grow. We offer some large, one of a kind, specimen plants for landscape work. All material offered has been grown from seed, cuttings, or graft from this Nursery. They are field grown and not protected. All varieties are hardy. Inspection is invited.

You are invited to attend the annual

RHODODENDRON & AZALEA DISPLAY

at HICKORY HILL

In late spring, when Rhododendron and Azalea blooms brighten the countryside, we invite our gardening friends to visit our unique display of these favorites blooming together, each complementing the other with their individual beauty.

Our amphitheatre of Rhododendrons and Azaleas is unrivalled in this area. The beauty and color of these hybrids will long be remembered for this propagating stock was brought to Hickory Hill from Europe many years ago, and is now an outstanding garden presentation.
